Funding will provide for a continuing program to serve populations with special housing needs. This program provides funds to Alaskan nonprofit service providers to increase housing opportunities for Alaska Mental Health Trust Authority (AMHTA) beneficiaries and other special needs populations throughout the state. The funds may be used for housing development and/or services designed to achieve long-term residential stability.

Project Description/Justification:

The purpose of this authorization is to: Provide funds for Alaskan nonprofit service providers and housing developers to increase housing opportunities to Alaska Mental Health Trust beneficiaries and other special needs populations throughout Alaska. This program has developed 251 units since FY2000.

The projected outcomes are to:

- Support the operations of 14 congregate housing properties for people with mental illness or developmental disabilities;
- Reduce recidivism among clients spending time in institutions;
- Provide supportive housing, including assisted living, for people with mental, physical, or developmental disabilities, or multiple disorders; and
- Provide transitional housing with support services for newly recovering alcoholics and addicts.

Funding will continue to serve populations with special housing needs. This program provides funds to Alaskan nonprofit service providers to increase housing opportunities for Alaska Mental Health Trust Authority (AMHTA) beneficiaries and other special needs populations throughout the state. The funds may be used for housing development and/or services designed to achieve long-term residential stability.

Program Description:

The demand for special needs housing remains critical. The Alaska Mental Health Trust Authority (AMHTA) has made housing one of its five focus areas for funding. The Alaska Independent Living Council, and other special needs advocacy groups have identified supportive housing as a top priority in their statewide planning efforts.

The target population served under the Beneficiary and Special Needs Housing program consists of mental health beneficiaries and other special needs groups like severely emotionally disturbed children and the homeless. This program provides funds to Alaskan nonprofit service providers and housing developers to increase housing opportunities to AMHTA beneficiaries and other special needs populations in Alaska through pre-development and development activities

AHFC will administer Beneficiary and Special Needs Housing development funds with other federal, grant, and tax credit housing programs. By streamlining these programs, multiple funding sources, including AHFC loans, are available for non-profit housing developers. This will ensure sufficient, expedited funding and development of non-profit housing developments. Typically, most special needs housing in Alaska is financed by AHFC.

Examples of special needs housing include, but are not limited to:

- Congregate housing for people with mental illness or developmental disabilities;
- Supportive housing, including assisted living, for people with mental illness, developmental disabilities, or multiple disorders;
- Transitional housing with support services for newly recovering alcoholics and addicts; and
- Permanent or transitional housing support for the homeless and AMHTA beneficiaries.

The loss of Beneficiary and Special Needs Program funds will mean increased expenditures by the state to house people who are inappropriately housed in the Alaska Psychiatric Institute (API) or the correctional system. The cost of providing community-based care is significantly lower than institutional care. A recent evaluation of six supportive housing properties funded through this program showed an average daily expense of \$51 a day compared to \$142 in prison and over \$1,100 a day in API. Another negative effect is the loss of leveraging opportunities with other federal grant programs.

AHFC - Special Needs Housing Program Capital Budgets from SFY 2011 - SFY 2017
